

Therap Global Newsletter

November 2018

Therap Global activities in October

Therap Global Expert, Ken Slavin in South Africa

Therap Global Expert, Ken Slavin was in South Africa to provide an overview of Therap suite of applications. The overview included reviewing daily documentation processes followed by organizations providing services to person with disabilities in alignment with requirements set forth by the government organizations.

Training Session with BRAC

Therap Global started implementation with BRAC back in July 25, 2018 in Bangladesh. Recently, we again hosted a training session for BRAC Sector Specialists and a team of teachers on October, 2018. Among the attendees were Sarder Lutfor Rahman, Senior Sector Specialist Inclusive Education along with Sector Specialists from different Neurodevelopmental Disability Centres (NDD) of BRAC.

Online Training Session with St. Philomena School, Philippines

Therap Global conducted an online training session in Philippines on October 9, 2018 attended by a group of teachers from St. Philomena School. We provided an overview of Individual Data Form (IDF), T-Log, Caseload and many other features of Therap Global and answered their queries regarding Therap suite of applications.

Therap Mobile Applications

Therap Mobile Applications provides a collection of tools that enables support professionals to provide improved care to individuals, especially when providing services in a community setting globally. This app can be used to enter service data, progress notes, and record medication administration data. Therap Mobile Application is available on both Android and iOS platforms and can also be used in tabs. You can check out the minimum requirements for using Therap Applications [here](#).

Therap Mobile Application Features

ISP Data

- Remotely collect service data
- Verify visits using GPS location
- View service data from convenient location

T-Log

- Document daily logs, notes and follow-ups
- Categorize health notes, behavior notes, contact & general information
- Track daily logs from your mobile devices

Mobile MAR

- View allergies, diagnoses, and images of medication
- Monthly medication administration reports
- Access shared medical contacts
