

Therap Asia Newsletter

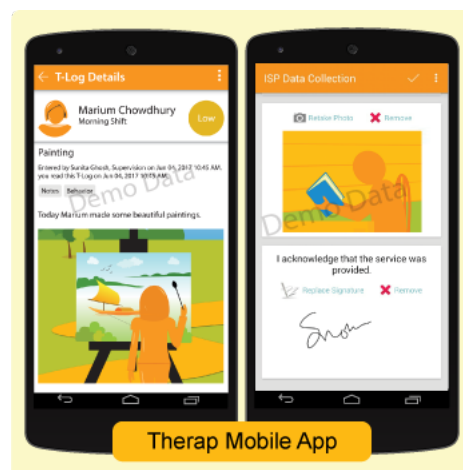

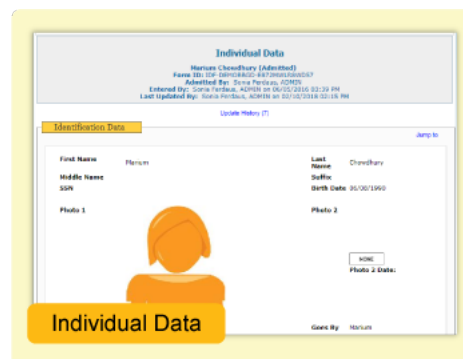

February 2018

A Glimpse of Therap Asia

Therap Asia is glad to publish their first Newsletter of the year. Therap Asia provides secure, web-based documentation and communication services to many disability agencies across Bangladesh, Indonesia, Philippines, Nepal and Sri Lanka in Asia. Our software Therap, is useful for caregivers of Persons with disabilities (PWD) such as Developmental Pediatricians, Child Psychologists, Speech and Language Therapists, Occupational Therapists, Special Education Teachers, Administrators and Parents. Therap Asia provides regular support to the users through online and onsite training and training materials such as videos and user guides. Therap Asia also organises events such as workshops, conferences and information sessions globally. In 2017, Therap Asia was the Technology partner of 23rd AFID Conference. Every year, Therap Asia also organises Therap's National Conferences. To know more, please visit www.TherapAsia.net.

Important Modules of Therap Asia

- **Individual Data Form** : This module is used to record basic demographic, health and emergency information for persons with disabilities.
- **T-Logs** : This module is used to record daily documentation, progress notes or communication logs that you may be doing on paper or in your daily activities notebook/diary for persons with disabilities.
- **ISP Program**: This module is used for planning Individual Education Plan (IEP). You will be able to design and document teaching programs, track the progress of persons with disabilities in learning different skills by using scoring details, tasks and teaching methods.
- **ISP Data** : This module is used to score/collect data for the associated ISP Programs (IEP).

Therap allows you to generate several types of reports for tracking progress of the important data of persons with disabilities. Some of the Therap reports are mentioned below:

- **T-Log Detailed Report** : With T-Log Detailed Report you can generate a full detailed report on T-logs that have been documented.
- **ISP Report** : ISP Reports are generated to view progress on the outcomes of skills planned in an IEP of persons with disabilities.
- **Demographic Report** : The Demographic report categorizes the gender, age, race, ethnicity, medical diagnoses (ICD-10, DSM-5), mobility, location, and more for persons with disabilities.
- **Health Tracking**: This module allows you to efficiently track different types of health data for persons with disabilities and create detailed monthly reports.
- **Therap's Mobile App**: Therap's Mobile App enables users to collect service data, progress notes, GPS location, attach photos and give touch signatures.
