

Therap Global Newsletter

January 2019

Here's what Therap Global has been upto in December 2018

Workshop and Information Session In Cooperation with YPAC Nasional and Onsite Training Session with Yayasan Sayap Ibu Bintaro , Indonesia

Therap Global team members Prattay Iqbal and Rahmeen Tarek visited Indonesia where they conducted workshops and held information sessions which were attended by organizations including YPAC Nasional, Statistics Bureau of Indonesia, Ministry of Manpower, YPAC Solo and IT. Training sessions were also provided to YPAC Solo and IT. Prattay and Rahmeen also conducted an onsite training session at Yayasan Sayap Ibu Bintaro and the organization hope to implement Therap software in their other branches as well. All the organizations were appreciative of the work Therap Global is conducting to improve the documentation process.

Training Session With BRAC Neuro-Developmental Disability Centre

Therap Global team along with Johanna Kroth, Senior Training and Implementation Specialist and Michelle Saunders, Business Development Consultant, held a training session for BRAC Neuro-Developmental Disability Centre (NDD). Various sector specialists and teachers from multiple districts working in NDD Centres were present. The training session was conducted on Therap's T-Log module with a focus on the detailed report, where users can download the reports through excel and review the report for completion, oversight and further analysis.

Training Session with NAID, Navjyoti Centre, CP Centre and SERC in Nepal

Therap Global team members successfully conducted training sessions with NAID, Navjyoti Centre, CP Centre and SERC. The training sessions were highly engaging as it collaborated with the teachers who practiced using the features for better understanding. The team also discussed scheduling future online meetings. Therap Global team had a great time visiting and providing successful onsite trainings.

Therap's Health Tracking module

Therap's Health Tracking module allows users to efficiently track different type of health data relating to an individual and create detailed and monthly reports. It gives a flexible way to record and follow up on medical issues including Appointments, Vital Signs, Blood Glucose, Medication History and many more.

Health Tracking features

The Health Tracking module provides forms to help staff members provide enhanced health care. Few are given below:

Appointments	Organize upcoming appointments for Individuals
Seizures	Record and view the duration of a seizure, the date and time, and other relevant information of the event
Height/Weight	Record the height and weight of the individuals being supported
Medication History	Record information of medications given to individuals
Respiratory Treatment	Provides users with tools to record respiratory treatment details for individuals. These treatment details can be stored for both before and after the respiratory treatment of an individual.
Health Care Reports	Health Care Reports may be generated for given time ranges, with summaries from an individual's approved data. These may include information extracted from all Health Tracking forms. Once a report is generated, the report can be saved within the system. Monthly and Detailed Reports can be exported to excel for further comparison and analysis.
