## February 2019

### What Therap Global has been upto on January 2019

#### Onsite Training at Bangladesh Blessing Child Special School and Blue Bird Special School, Bangladesh

**Blessing Child Special School**

**Blue Bird Special School**

Therap Global team had a successful visit to Blessing Child Special School on January 15, 2019. It was Therap's first onsite training session with Blessing Child Special School. Our team members were warmly welcomed by the teachers and staffs supporting children with special needs. On January 29, 2019, Therap Global held the second successful onsite training session at Blue Bird Special School. Ms. Shahana Karim, Founder and Principal and three teachers attended the training session. The training session went well as Ms. Shahana and the teachers were cooperative and showed eagerness about using Therap software.

#### Live Group Session on Recording Skin/Wound using Therap's Health Tracking Module

Therap Global conducted a Live Group Session on recording Skin/Wound conditions using Therap's Health Tracking module on January 17, 2019 at 12.00 PM (GMT+6). This Live Group Session provided an overview of how organizations working with Persons with Disabilities (PWD) can use our electronic documentation software for tracking health outcomes with ease. The Health Tracking Skin/Wound module allow users to enter information about skin conditions and wounds being treated for individuals they support in an efficient way. Results can be graphed or presented in a table which can be exported to Excel.

## Individual Data Form

Therap's [Individual Data Form](#) (IDF) has been designed to help users document essential information such as race, religion, admission date, program enrollment date, etc. for Persons with Disabilities (PWD), along with their basic identification details. This form enable users to attach medical documents and photographs and store them online.

## Demographic Report

Demographic report is a useful tool for agencies to get all the relevant demographic statistics by language, gender, mobility, communication modality, country of origin, and others. Each agency can generate a demographic report, which is based on the information entered in the Individual Data forms.

**Topic:** Live Group Session on How to track Health Tracking data - Skin/Wound using Therap Software
