

Therap Global Health Tracking

Therap Global Health Tracking is a comprehensive tool for managing patient health data. It allows users to view and manage appointments, blood glucose levels, height/weight, immunization, infection tracking, intake/elimination, lab tests, and lab test results. The system is designed to be user-friendly and efficient, providing a clear overview of patient health status and enabling quick access to critical information.

1. Health Tracking > Appointments > Calendar View

To Do	Health Tracking
