

Activity Tracking

The **Activity Tracking** application keeps logs of the operations performed by staff in the Therap system. It helps in auditing and monitoring of the services provided to individuals and the data created, read, updated, and deleted within the system. The logs are also date and time stamped. This security option lets you find out who has been using the system, when they were using it, and for what purposes.

Users with the **Activity Tracking** Administrative Role are able to access the **Activity Tracking** module.

1. Starting on the Admin tab click on **View** beside **Activity Tracking**.

Agency	User	New List Import from Excel Search Imported Excel Titles New Title Assign External System ID Self Password Reset
Admin	Physician Information	List Physician List
Agency Reports	Change Password	User List
Individual Home Page	User Privileges	Manage Archive Legacy Archive Upto Jul 2011
Settings	Admin Roles	List Legacy Archive
	Splash Message	Create Update/Delete
	Activity Tracking	View
	Caseload	Manage Archive

2. On the **Activity Tracking Search** page, you may enter different search parameters. Only the **date range** is a required field on this page. Entering more search parameters will result in a narrower search, whereas keeping search fields empty will display a broader search result. After

entering necessary search parameters, click on the **Search** button.
