Create Behavior Data Report

Users with the ***Behavior Report View*** role can generate and search saved **Behavior Reports.**

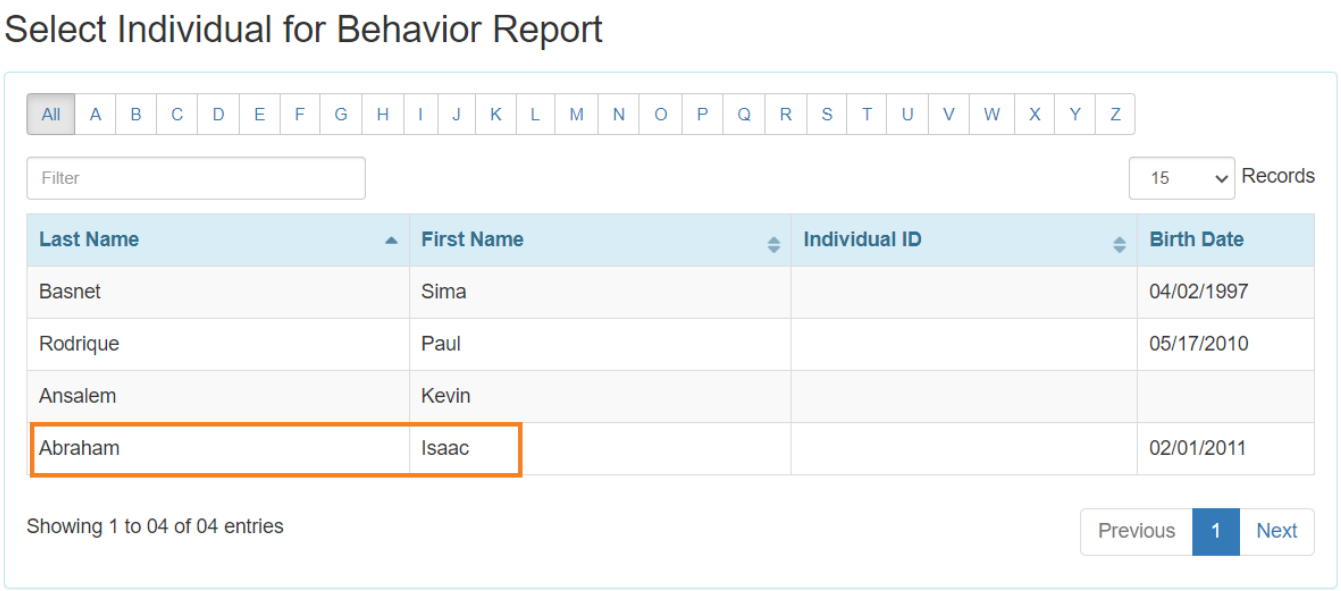
The Behavior Report can be generated in two formats:

- Graph
- Table

The Behavior Report Graph format

1. Click on the **Report** link beside the **Behavior Data** option under the **Care** section from the **Individual** tab.

2. On the **Select Individual for Behavior Report** page, select the individual from the list.



3. On the **Behavior Report** page, select the parameters and options based on which the report will be generated. There are four types of Behavior Report as follows,

- Behavior Event Data Frequency Report
- Intervention Event Data Frequency Report
- Behavior Interval Data Frequency Report
- Behavior Interval Data Percentage Report

Select the **Event Date** from the calendar icon and select the **Report Type, Period, Format(Graph)** from the given options and add **Behavior(s)** from the drop down list.

Click on the **Generate** button to see the **Behavior Report.** The report will be generated.

- Select the **Event Date** from the calendar icon and select the **Report Type, Period, Format(Graph)** from the given options and add **Behavior(s)** from the drop down list.
- Click on the **Generate** button to see the **Behavior Report.** The report will be generated.
