

Create Case Note Template

Users assigned with the **Clinical Admin** administrative role will be able to create Case Note Templates, search Templates, and configure Templates.

1. Click on the **Create Template** link beside the **Case Note Template** option from the **Admin** tab.

The screenshot shows the 'Module Configuration' page in the Therap Global system. The left sidebar has the 'Admin' tab selected. The main content area displays a table of configuration options. The 'Case Note Template' row is highlighted, and the 'Create Template' link is enclosed in a red box.

Please see below for error messages!

Person Contacted should be marked as visible since its required

3. Enter a **Name** and select a **Time Format** for this template.

You can also select **Location(s)**, **Activity Types(s)**, and **Questionnaire** for the template if needed.

- Typing a few letters in the **Location(s)** and **Activity Types(s)** fields will display drop-down lists matching the Locations and Activity Types of the agency. (To learn how to create **Location** and **Activity Types**, [click here](#)). You may select multiple Locations and Activity types for a template.

- The drop-down list of **Questionnaire** fields will display the list of approved Questionnaires. Select your preferred Questionnaire. After you are done, click on the **Save** button to save the template.

Note: If users want to link a Questionnaire to the Case Note Template, then users will need to create the Questionnaire before creating the Case Note Template. For more information on creating Questionnaires, [click here](#).
