

Create ISP Program

ISP Programs can be used to track the progress of an individual as they are working on their goals or objectives. An ISP (Individual Support Plan) Program includes the written details of the supports, activities, and resources used to help an individual toward accomplishing their goals.

Users assigned with the **ISP Program Submit** role can create new ISP Programs.

1. Starting on the Individual Tab, Click on **New** beside ISP Program.

To Do	Care	
Individual	T-Log	New Search Archive
Health	ISP Data	New Search Report Search Report Dashboard
Agency	ISP Program	New Search Acknowledgement Report
Billing	ISP Program Template Library	New Draft Approved Search

2. Select the **Program** that the individual is in from the list.

4. In the ISP Program form, enter required details for each section:

In the ISP Program form on the top right side there is a **Jump to** button. Clicking on the **Jump to** button will show the list of sections of the ISP Program. Users can click on an item from the list to go to that section.

A screenshot of a web form interface. At the top, there is a light blue header bar containing three buttons: "T-Notes", "Jump to", and a question mark icon. The "Jump to" button is highlighted with a dark border. Below this header, a dropdown menu is open, displaying a list of sections in blue text: "ISP Program Description", "Schedule and Frequency", "Scoring Details", "Teaching Method(s)", "External Module Connection", "Other Details", and "Files & Images". Each item in the list is separated by a horizontal line.

A help button indicated by a question mark (?) is available. Clicking on this button will show a list containing brief descriptions of the fields in that section of the ISP Program.

T-Notes

Jump to

**Help** 

ISP Program Name: This is the title of the ISP Program.

Start Date: This is the first day that data collection can begin. **This field cannot be edited after approval.**

End Date: This is the last date of data collection. This field **can** be edited after approval. Adding an End date will not discontinue an ISP Program.

Target Completion Date: Anticipated date of completion. This field does not impact data collection dates. Adding a target completion date will not discontinue an ISP Program.

Location: Where the service is provided.

Long Term Objective: Overall Goal(s) for Individual.

Goal/Service: List or outline individual tasks/ staff supports here.

Reason for Program: Define the reasons or rationale for the Goal / Program. This could be a statement of why the team felt the program was applicable or a person centered statement.

Criteria for completion: Define what must be met for this program to be completed, re-evaluated or modified.

Materials Required: List all items required for this program and where they can be found.

ISP Program Description

ISP Program Name: Enter the name of the objective, goal program, or task of this ISP program. Note: You cannot use the exact same ISP program name for the same individual more than once, so you may want to include a date, term name, or grade level.

Start Date: Data can be collected starting on the selected program creation date. You can use today's date, or you can use a future date, such as the first of the following month, or the start of the next term, and the program will not be in effect to allow data collection until the selected date.

End Date: ISP Data cannot be submitted for a date later than the End Date. Adding an End Date will not automatically discontinue the ISP Program.

Schedule and Frequency

Frequency: Frequency indicates how often ISP data should be collected on this ISP program. You can select a number from 1 to 50 here and then you also need to select the appropriate option in the schedule field below.

When you click on the question mark in this section - it has "Frequency - Interval (1-50) in which data is expected." and "Schedule - Unit (daily/weekly/monthly) in which data is expected.

Schedule: Schedule means when data is to be collected or the number of times it is expected. This is the number of times the ISP programs will be applied to an Individual. In this field a dropdown list is added containing three (3) options: Daily, Weekly, Monthly. This field will be required if a Frequency is selected.

If options are selected in the Frequency and Schedule fields, then they cannot be edited after approving the ISP Program.

Maximum Number of Times a Day: Enter how many times you want to allow documentation to be entered, at the most, per day, on this ISP program.

Fields marked with red asterisks are mandatory.

Note: If you do not see a scoring method that suits your needs, you may create a new scoring method.

Users assigned with the **Scoring Method** administrative role will be able to define new scoring methods by clicking on the **Define New Scoring Method** button at the bottom of the page.

Note: There are 2 ways to create a scoring method - from here - for just this ISP program, or from the Admin tab, if you want to have the scoring method appear on the list of scoring method

options.

Enter the Scoring Method Name and the Number of Scoring Method Levels you are going to add. The selected number of scoring method levels will become editable. Enter the Caption Name and Label Acronym for each label. The Label Acronym will appear in different ISP data reports. Select the checkbox in the Non Reportable column if you want to make a score level non-reportable. Non-Reportable scores can be recorded on ISP Data but will be excluded from calculations in the ISP Data Programmatic Report, which displays the percentage of progress on goals. Once you are done, click on the **Continue** button to return back to the main form.

9. Fill in the **Other Details** section according to documentation needs and preferences.

For the **ISP Data Location** dropdown field to show, an option other than “None” must be selected in the field. If any option other than ‘Optional’ or ‘None’ is selected in the Location for data collection field, then the user must select an option from the ISP Data Location field.

Options can be adjusted later when the template is applied to the Individual.

10. Once done with entering the necessary information, click on the **Save**, **Submit**, or **Approve** button at the bottom of the ISP Program.

- Click on the **Save** button to edit the ISP Program later. Note: Click on Search beside the ISP Program row from the Individual tab to find the Saved ISP Program. You can also find saved ISP programs on your **To Do** Tab worklist.
- Click on the **Submit** if all the fields are filled up and you are ready for this to be reviewed and approved.
- Click on the **Approve** button if you are an **Admin** and all the sections of the ISP Program are completed as needed.

Note: A warning message will be displayed after clicking on the Approve button of an ISP Program, stating that once approved, Scoring Method cannot be edited and additional Tasks cannot be added. Users will need to click on the **Yes** button to approve the ISP Program.

After making your choice, if you have completed all required fields, a success message will be displayed.

If you do not get a success message, look back to find any needed information, complete that, and try again.
