

Enter Height and Weight

A user can record and keep track of an Individual's **Height** and **Weight** information through Therap's **Height/Weight** module.

In order to enter new **Height/Weight** information of an individual, the user will need to be assigned with the **HT Submit** role.

1. Click on the **New** link in the **Height/Weight** row under the **Health** tab.

The screenshot displays the Therap Global interface. On the left, a sidebar menu is visible with the following items: To Do, Favorites, Individual Home Page, Individual, Health (highlighted), Admin, and Settings. The main content area is titled "Health Tracking" and contains a list of health-related modules. The "Height/Weight" module is highlighted with a yellow arrow pointing to its "New" link. The "New" link is followed by "Search" and "Report" links. Other modules listed include Appointments, Blood Glucose, Immunization, Infection Tracking, Intake/Elimination, Lab Test Result, Menses, and Respiratory Treatment, each with its own set of "New", "Search", and "Report" links.
