Health Tracking Report

Therap's Health Tracking Report module allows users to produce a report for an individual for a chosen time period. The report will contain all the Health related data that has been previously entered for the individual for the selected date range.

Users can generate two types of Health Tracking Reports:

- Monthly
- Detailed

Monthly

The Monthly report contains high and low Vital Signs, along with counts of Height/Weight, Blood Glucose, Medications, Seizures, Wounds, Menses, Intake/Elimination and Respiratory Treatments. Each number is then a link to a list of those entries.

1. Click on the **Monthly** link beside Health Tracking Reports under Health Tab.

- Users can also click on the **Monthly** link in the Health Tracking Reports dropdown list under Health Tracking, from the **Modules** section of the *Individual Home Page*, by searching an Individual name.
