

## Compose SComm Message - General

The Secure Communications (SComm) module has been designed to facilitate the exchange of information among users in a secure way. Users can use the Secure Communications (SComm) module to communicate with a user or group of colleagues when they want to share information on administrative, personal or individual care related issues with others that also have a login for Therap.

Users with the SComm Roles enabled from their User Privileges will be able to compose a General SComm Message from their account.

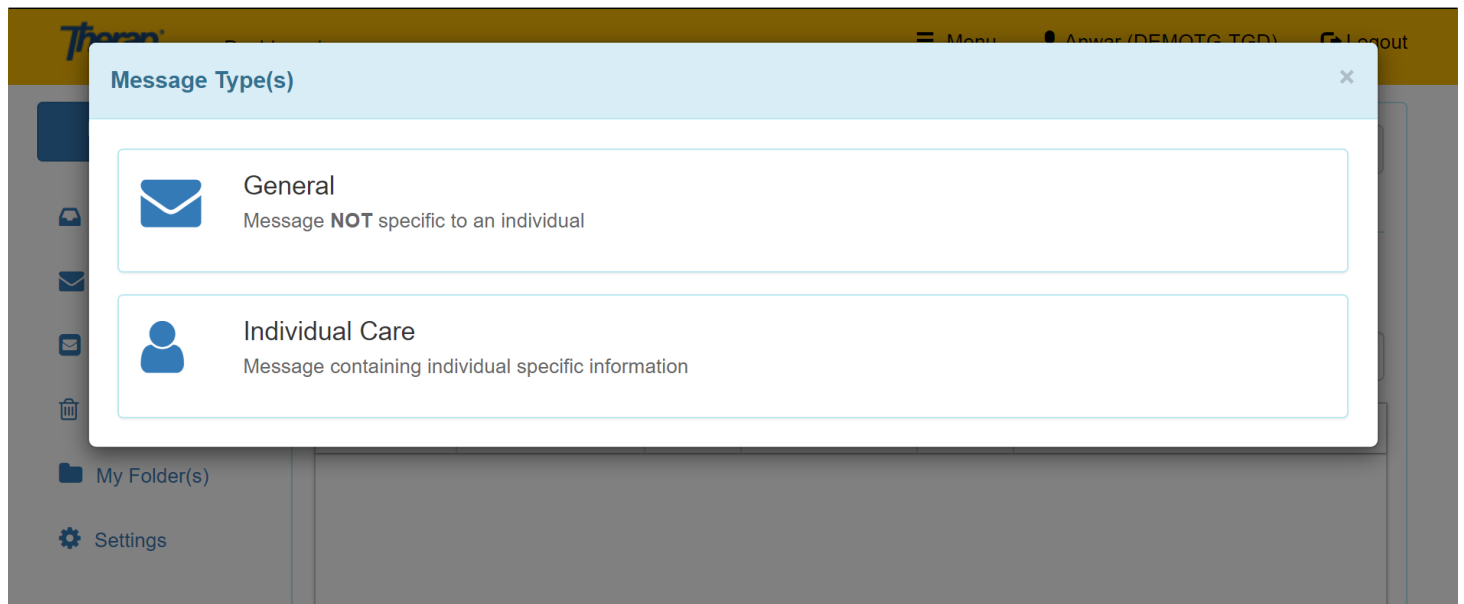

### SComm Roles

- ☒ Enable Full SComm
- ☐ Individual Care SComm  
Send Only
- ☐ Enable Limited SComm

1. Click on the **Compose** link under the **SComm** section on the right side of the Dashboard.
