

## Test Mode

You can use the **Test Mode** option to try out the features of Therap Applications. We recommend users to use this option to learn how to use the system using **test** data before starting to use the applications. Data entered in **Test Mode** remains in the system, and can be accessed by switching back to **Test Mode**.

1. From Dashboard click on the **Settings** tab.

General	
Individual	Provider Preferences   Password Policy   Archive Preference
Health	
Agency	User New   List   Import from Excel   Search Imported Excel   Titles   New Title   Assign External System ID   Self Password Reset
Admin	Physician Information List   Physician List
Agency Reports	Change Password User List
Settings	User Privileges Manage   Archive   Legacy Archive Upto Jul 2011

2. Click on the **On** link beside the **Test Mode** option on the **Settings** tab.

TO DO	My Settings	
Individual	Personal Details	Edit
Health	Self Password Reset	Configure
Agency	Super Admin List	View
Admin	Password	Change
Agency Reports	Test Mode	 On   Off
Settings	SComm Settings	Configure
	Individual Home Shows	All   Recently Accessed

This will take you to the **Test Mode**. The **Test Mode** on Dashboard looks almost exactly the same as your actual Dashboard but with a ‘**TEST MODE - Do Not Enter Real Data**’ message on top of your Therap pages.

**Note:** Not every feature/module that your Therap account has is available in **Test Mode**.

 **TEST MODE - Do Not Enter Real Data**

**Program:** No Program Selected

**Profile:** Initial

**Module:**
