

## Maglagay ng ISP Data

Ang ISP data module ay nagbibigay abilidad na mangolekta at magrecord ng datos upang matrack ang progress ng goals na naset sa Service/Program Plan o IEP matapos itong mailagay sa **ISP Program**. Matapos mailagay ang mga datos, ikocompute ang ang mga scores ayon sa scoring method na napili sa ISP program at ang percentage ng progress ay naka display sa programmatic report. Mas maraming datos ang makolekta mas accurate na matrack ang progress ng indibidwal.

Ang mga user na may role na **ISP Data Submit** ang maaaring makapag enter ng **ISP Data**.

1. I-click ang **New** sa hilera ng ISP Data.

The screenshot shows a sidebar on the left with navigation options: Individual, Reporting, Health, and Employment. The main content area is titled 'ISP Programs and Data' and contains a table with the following rows:
